\_\_\_\_\_

Gentleshaw Wildlife centre does *not* accept responsibility for the health or behavior of the animal once it has left the sanctuary. Ages may be approximate. Any known health/behavior issues will be stated *before* the animal is homed. Due to the high amount of animals already looking for homes, we request the animal is not used for breeding. Sexes may not be guaranteed in some species. Documentation will be issued for species listed under CITIES. If for any reason, at any time, you are no longer able to care for the animal, it should be returned to Gentleshaw. Specimens will be captive bred and licensed where necessary. Gentleshaw will *not* offer any funding towards the up keep, care or treatment of the animal. Housing for the animal will not be supplied by Gentleshaw. No re homing fee is requested but a donation to our registered charity is gratefully received.
